Garden, Field & Flower Seeds,
Agricultural Implements and Fertilizers.

115 and 117 St. Clair Street,

Toledo, Ohio, October, 1895.

PHONE 609.

PIONEER BRAND CLOVER.

We are recleaners of CLOVER, TIMOTHY and other Grass Seeds, and ask that you be friendly and write us for samples and prices whenever in the market to buy either in large or small lots.

The 1895 crop of Clover Seed in the U. S. is a fair one, larger than had been anticipated, as the acreage was not an average one, and insects and the severe drought in the Clover Seed belt retarded the growth and there seemed to be hardly any show for a yield, but the rains and very fine growing weather later in the season, in some sections, west and south, started the growth and made some seed.

In some of the last mentioned sections the yield was large, so that the aggregate crop in the U. S. is a fair one, but the quality of most of the seed marketed is of low grade and will cost a good deal to bring it up to the desired standard, especially for export, if there is any such demand.

France and other parts of Europe have exceedingly large crops of Clover Seed this year and are offering to supply this country with a choice quality of Clover at low prices.

We can hardly expect any export demand for our Clover, therefore anticipate no sharp advance and prices may rule reasonably low, which will be acceptable to all in need of Clover Seed to restock their farms at low prices. Toledo is the Clover Seed market of the world, and we offer Clover Seed—Mammoth and Medium, Alsike, Alfalfa, Scarlet or Crimson and White, also Timothy, Blue Grass, Orchard Grass, Red Top, Lawn Grass, Mixed Pasture Grass and all the leading imported grasses in bushel or car lots.

Can also make special prices on Dwarf Essex Rape Seed, Russian Sunflower, Yellow and White Bottom and Perennial Tree or Egyptian Onion Sets; Onion Seed of all kinds, Field Pumpkin Seed, Hubbard Squash Seed, etc.

If you have not purchased all of your Field Seed Corn, then we are pleased to offer you the following varieties shelled and fanned, f. o. b. cars here; bags extra, at cost.

The Improved Early Leaming; Early White Cap Yellow Dent; and Extra Early Huron Dent and other varieties.

We can also offer fine and coarse Tobacco Dust and Pure Bone Fertilizers at the following price, f. o. b. cars here. No charge for barrels or sacks.

Fine Tobacco Dust	--	--	--	--	@	\$ 2 00 per barrel.
Tobacco Cuttings	--	--	--	--	@	1.50 "
Maumee Valley Bone Meal (Pure Ground Bone)	--	--	--	--	@	26.00 per ton.
Maumee Valley Phosphate (Bone and Meat)	--	--	--	--	@	20.00 "

We import Flowering Bulbs direct from Holland, China and Japan, and upon knowing your wants can make you low prices, as we have no traveling expenses to pay and will not be undersold by any other firm.

We inclose Blank Price List of Field Seeds, Retail Bulb List, Circulars of the celebrated and improved Clipper Seed and Grain Cleaner, and Little Giant Hand Broadcast Seed Sowers, and will be pleased to quote prices upon receipt of your inquiry.

Hoping to hear from you whenever in the market to buy or sell. We remain,

Yours truly,

THE HENRY PHILIPPS SEED AND IMPLEMENT CO.,

115 and 117 St. Clair Street,

TOLEDO, OHIO.
